

MADHAV SHARMA

AI / ML Engineer | Generative AI | Computer Vision

madhavsharma1489@gmail.com • +91 7006563950 • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

SUMMARY

Aspiring AI/ML Engineer with hands-on experience in Generative AI, RAG pipelines, LLMs, and Computer Vision. Proficient in Python, TensorFlow, and Scikit-learn. Certified by Microsoft in AI & ML Engineering. Seeking an entry-level role to deploy intelligent, data-driven solutions that solve real-world problems.

TECHNICAL SKILLS

Languages: Python, C++

AI / ML & GenAI: Supervised/Unsupervised Learning, CNN, RNN, NLP, Computer Vision, LLMs, RAG, Generative AI, Prompt Engineering, Recommendation Systems

Frameworks: TensorFlow, Keras, Scikit-learn, XGBoost, OpenCV, NumPy, Pandas, NLTK, MediaPipe, Streamlit, HuggingFace, LangChain

Databases & Cloud: ChromaDB, PostgreSQL, Microsoft Azure, MLOps

Tools: Power BI, MS Excel, Git, Jupyter Notebook

PROJECTS

Slide Forge — AI Presentation Generator — [RAG](#) · [HuggingFace LLM](#) · [ChromaDB](#) · [Streamlit](#)

- Built RAG pipeline embedding data into ChromaDB, summarized via HuggingFace LLM — reduced slide creation time by ~70%.
- Achieved ~85% content relevance accuracy using semantic chunking and similarity search.

Vision-Based ASL Recognition System — [Computer Vision](#) · [MediaPipe](#) · [OpenCV](#)

- Real-time ASL gesture recognition system achieving 91% accuracy on live webcam with <200ms latency.
- Converted 26 hand gestures to text with word suggestions and text-to-speech output.

Movie Recommendation System — [Content-Based Filtering](#) · [Scikit-learn](#) · [Streamlit](#)

- Built TF-IDF + cosine similarity engine over 5,000+ movies achieving 88% top-5 recommendation precision.
- Deployed interactive Streamlit app with real-time search and TMDB API poster fetching.

EXPERIENCE

Data Science Intern | [OasisInfobyte](#)

Apr 2021 – Apr 2022

- Built 3 end-to-end ML models (price prediction, spam detection, sales forecasting) achieving 90%+ accuracy.
- Reduced data preprocessing time by 40% through reusable Python utility functions for cleaning and encoding.

CERTIFICATIONS

Microsoft AI & ML Engineering Professional Certificate • Udemy 100 Days of Code: Python • Udemy ML A-Z • AcmeGrade Artificial Intelligence

EDUCATION

B.Tech — Computer Science | [College of Engineering Roorkee](#)

Sept 2022 – July 2026

Expected Graduation: 2026 • Percentage: 74%

Intermediate — PCM | [Heritage Public School](#)

Completed 2022

Percentage: 79%

KEY STRENGTHS

Creative problem-solver with strong AI/ML foundation • Quick learner, adapts to new tools fast • Detail-oriented & quality-focused • Effective communicator & team collaborator
